**Eric W. Doeh, Interim President and CEO**

the transferring of funds from DWIHN to a provider that currently offer IPS services to the Wayne County residents for the remaining of fiscal year 21. TWC will offer services to adults with an opioid use disorder to obtain community base jobs that pays at least minimum wage alongside others with the ultimate goal of increasing recovery and self-sufficiency. The grant will end at the end of this fiscal year and will not be reinstated. This course of action will allow the services to be continued for the remaining of this fiscal year without further interruption and additional required trainings.

**C. BA 20-32R SUD Provider Contract: Sobriety House Opioid Health Home**

The SUD Department is requesting permission to transfer \$20,000.00 in SOR Opioid Health Home Funding to Sobriety House for expanding OHH services in a residential setting. Several of the providers that were originally delegated this service have decided to withdraw from this initiative. In an effort to provide continuous OHH services and options, the SUD is seeking permission to add Sobriety House as the designated residential program. Sobriety House OHH program will provide comprehensive care management and coordination of services to Medicaid beneficiaries with an opioid use disorder diagnosis for enrolled beneficiaries. This will elevate the OHH services to individuals in residential settings and in doing so this will add to an beneficiary health and social needs. Participation is voluntary and enrolled beneficiaries may opt-out at any time. DWIHN has three goals for the OHH program: 1) improve care management of beneficiaries with opioid use disorder; 2) improve care coordination between physical and behavioral health care services; and 3) improve care transitions between primary, specialty, and inpatient settings of care.
