RE: COVID Supply and Person Protection Equipment Update

Due to the COVID-19 pandemic, the Detroit Wayne Integrated Health Network (DWIHN) secured and distributed a supply of Person Protection Equipment (PPE) to assist our Provider Network in a critical time of need to ensure quality care could remain for the people we serve.

Understanding that these are trying times for us all, we all need to make continuous preparations to meet the growing needs of our population. DWIHN would like to provide you with information and resources to some vendors in Southeast Michigan that can provide your organizations with PPE and additional resources you might need moving forward.

The Business Connect program through the Michigan Economic Development Corporation has developed and designated a portal for your PPE needs. You can access the online portal at www.michiganbusiness.org/ppe.

The Michigan Chamber of Commerce website provides a list of manufacturers and vendors who can take PPE orders. Please click on the link for further information:

Thank you so much to all our Providers who are going the extra mile during these challenging times in caring for our most vulnerable population.
