Step 4

Upon clicking the button, a pop up work pane will appear, select committee members by selecting the check box next "Assign to All" (highlighted in green) or select the check box next to the individual committee members to be assigned (highlighted in red). Next assign the "Review Date" and the "Committee Date" by typing in appropriate date (highlighted in blue). Once you are satisfied with data input, click the button labeled "Confirm" to assign the selected providers (highlighted in yellow).

#### 3.0 TABLED WORK FLOW

During a normal credentialing committee, a committee may determine that a file should be tabled for a future meeting rather than provide a deny, terminate, or approve vote. Should that occur, after all committee members, including the director, vote "Tabled" the system will automatically close the file for the current committee.

The system will then add a copy of the record back into VRC. The file will still be displayed in the "Review and Discuss" review level. When the scheduler is ready to assign the "Review and Discuss" files to the next committee he or she will assign the tabled provider along with all other "Review and Discuss" files for that new committee. There are no differences in the process as compared with section 2.0 Standard VRC Scheduler Work Flow.
